PROFESSIONAL SUMMARY

Innovative software developer with a passion for learning new technologies and mastering software engineering. Dedicated to leveraging technical skills to drive company success. Strong believer in teamwork and using technology to solve real-world problems

WORK EXPERIENCE

Freelancer

United Arab Emirates

Software Developer

October 2024 – NOW

- Developing an online bazaar platform.
- Technologies Used: [Node.js, NestJS, Angular, MongoDB]

TRT GLOBAL

istanbul - Türkiye

full-stack develop

February 2024 – October 2024

- Developed a comprehensive content management system (CMS) with spell-checking, content validation, and push email notifications.
- Integrated AI-powered tools to enhance content creation, including automatic translation, text summarization, and formatting assistance.
- Collaborated with NewsHQ and AssetHQ to enhance system capabilities and user experience.
- Designed and implemented a microservices architecture, improving scalability and maintainability.
- Technologies Used: [Node.js, React, MongoDB, Postgresql, Docker, AWS, Typesense, nextjs, PayloadCMS, Python]

Hitatek

hacettepe teknokent, Ankara

Team Lead Software Developer

February 2022 - November 2023

- Led the expansion of the development team from 4 to 10 engineers, significantly enhancing the company's technical capabilities and project scalability.
- Developed a Telegram bot using Node.js to track project progress, manage invoices, and handle permissions, increasing project management efficiency by 25%.
- Designed and implemented the Eğitim Yönetim Sistemi (Education Management System) for Baykar, managing semesters, curriculum, trainers, trainees, and exam schedules, with integrated notifications.
- Developed the Saha Yönetim Sistemi (Field Management System), an ERP system for managing company resources, branches, employee tracking, priority organization, and fair evaluation.
- Built real-time election tracking pages for TRT World, integrating live data from Anadolu Agency, improving accessibility and data visualization.
- Led and mentored a diverse team of developers, successfully transitioning non-software engineers into full-stack developers and fostering a strong collaborative development environment.
- Provided technical leadership, ensuring the successful delivery of multiple projects by implementing best coding practices, optimizing workflows, and improving development strategies.
- Resolved critical technical challenges, enabling the team to develop problem-solving skills while personally handling complex issues to maintain smooth project progression.
- Technologies Used: [Node.js, React, MongoDB, PostgreSQL, Ubuntu Server, NestJS, C#, .NET Core, Redis, MSSQL, AWS, Docker, Cloudflare, Python, Angular]

Tarım Kredi Teknoloji A.Ş

Gazi Teknopark, Ankara

Software Developer (Trainee)

February 2022 – April 2022

- Developing a wholesale platform to buy from wholesalers directly to consumers
- Creating Tappy Chicken with Unreal Engine
- Technologies Used: [C#, C++, .net core, Blazor webassembly, Angular, MongoDB, ubuntu server, MSSQL, cloudflare]

- Developed an appointment booking app for barbers using Kotlin, increasing user engagement by 40%.
- Built an e-commerce app with .NET Core Blazor, boosting sales by 20%.
- Optimized finance resource utilization using Ubuntu Remmina and Raspberry Pi, reducing hardware costs by 30%.
- Contributed to ustaol.com, a platform delivering fresh food ingredients with ready-to-cook recipes, similar to Blue Apron.
- Technologies Used: [C#, C++, .net core, Blazor webassembly, Angular, MongoDB, ubuntu server, MSSQL, cloudflare]

EDUCATION

Sakarya University
Bachelor of Science in Computer Engineering

Sakarya, Turkey
2018 – 2022

ADDITIONAL INFORMATION

Certifications / Honors: Data Structures, Algorithms, Software Engineering, Access Code in Networking

Skills:

- **Programming Languages:** Java, C/C++, Kotlin, Python, JavaScript, TypeScript, PHP, C#
- **Frontend Technologies:** ReactJS, NextJS, Angular.io, VueJS,
- **Backend Technologies:** Nest.js, Node.js, .NET Core, Java Spring, Blazor, Laravel
- **Databases:** MongoDB(NoSQL), SQL (MSSQL, PostgreSQL, SQLite) - Relational Databases, Redis(In-Memory Database),
- **DevOps & Cloud:** Docker, AWS, Cloudflare, Ubuntu-Server
- **Software Development & Tools:** Git, GitHub, GitLab, Atlassian, Office 365, draw.io
- **Search & Caching:** Typesense, AWS Elasticsearch
- **Design & UI/UX:** Photoshop, Figma
- **Software Architecture & Patterns:** Design Patterns, Software Architecture, Performance Optimization
- **Problem Solving & Soft Skills:** Data Structures, Analysis of Algorithms, Troubleshooting and Solutions Deployment, Love of Learning Improvement, Dedicated Team Player, Analytical Thinking Skills, Attention to Detail, Enhanced With Strong Verbal Communication, Time Management.

Interests: I am interested in the latest technology and self-development. Interested in Rust and IOT I love swimming and sports. I like to listen, I'm a fairly good listener. I love learning and I love the thrill of learning, especially in the field of programming. I love camping trips and cruises.

Language: Arabic (Native), Turkish (Proficient), English (Pre-Intermediate)
